## building skills... changing lives

Christie Lake Kids offers recreational and skill development programs at no cost to economically disadvantaged children in the Ottawa area between the ages of 6-17 years old. Through our programs we assist children and youth to develop skills in the arts, recreation and athletics, which in turn builds leadership skills, self-confidence and the positive outlook that they need to break out of the poverty cycle and become young people contributing back to society.

Offering year-round programming within the urban housing environments and at camp, Christie Lake Kids recognizes that in order to grow into healthy adults, all children need opportunities to:

- Build life and recreational skills through artistic and athletic activities
- Build and improve self-esteem
- Be exposed to positive role models
- Gain an appreciation for art and culture
- Experience success and accomplishment

Christie Lake Kids programs are based on the following basic principles:

- All kids deserve a safe, healthy childhood.
- All kids deserve the opportunity to learn, to achieve, and to succeed.
- Teaching skills of all kinds not only builds that particular skill, it also builds self-esteem, social skills, and other positive qualities.
- Children from low-income families deserve the directly to same recreational and skill development opportunities as other children.

*Your gift will directly support the programs and the needs of the children participating in the programs of Christie Lake Kids. Because it is difficult for us to anticipate needs for certain items, your donation may be put to another valuable and essential purpose in program delivery.*

Thank you  
You make so much possible!
